

Chieftain by Command

From the bestselling, RITA nominated author Frances Housden comes the gripping, sensual, suspenseful follow-up to *The Chieftains Curse*... Gavyn Farquhars marriage is forged with a double-edged blade. Along with the Comlyn clans lands, a reward from the King, he is blessed with an unwilling bride, Kathryn Comlyn, and an ancient fort with few defences that desperately needs to be fortified before it can act as a sufficient buffer between Scotland and the Norsemen on its northern borders. Gavyn needs wealth to meet his kings demands, and he knows of only one way to get it-with his sword. Leaving his prickly bride behind in the hands of trusted advisors, he makes his way to the battlegrounds of France and the money that can be made there. Two years married and Kathryn is still a virgin. A resentful virgin, certain that, like her father before her, she is perfectly capable of leading the Comlyn clan. In her usurper husbands absence, she meets the clans needs, advising and ruling as well as any man. But she is an intelligent woman, and she knows the only respect and power she will ever hold will be through her husband. And to wield it, she needs to make him love her. An easy task to set, but impossible to complete, when said husband has been gone for two years, and there is no word of his return. But Kathryn is undeterred. After all, a faint heart never won a Chieftain.
