

Wire Jewelry Photo Gallery: Original Designs (Crafts Series Book 3)

Wire Jewelry Photo Gallery Original Designs What Youll Get Inside These Pages The four books of The Kick-Start Creativity Series are primarily photos of my work in the areas of metal (gold and silver and semi-precious stones), wood (rare, exotic woods with semi-precious stones), and fiber (bargello technique for wall hangings and bed quilts) over the years (1975 2012) to hopefully give you ideas for your own work. Wire Jewelry Photo Gallery is basically a book of jewelry photos of my unique handmade jewelry designs. There is a bit of instruction, but not much. Mostly, I just wanted to show you the designs to give you some ideas for your own work. About the Author Hello. Thank you for being interested in my work. I had a lot of fun creating it and am now having a lot of fun sharing it. I guess you could say I came to doing art work by the back door. My formal schooling was in the area of clinical psychology ... Bradley University, B.S. 1965 and M.A. 1969. But even as a child I wanted to grow up to be a jeweler. I was always fascinated by pretty stones. I would pry them out of their settings and squirrel them away in a pretty, fuzzy green box. My professional writing career began in 1980 with the publication of Jeans Arizona Fan Palm, cutting directions for a 3.2 carat citrine (you can see it in the Handcrafted Jewelry Photo Gallery book in this Kick-Start Creativity series), in the January issue of the Lapidary Journal Gem Cutting Magazine. Many years later I was submitting step-by-step articles for original jewelry designs to various international magazines. And now, 2012, Im enjoying the writing and publishing of various kinds of books for Kindle. Ill be 70 years old this year. Its been quite a ride. I hope you enjoy my offerings. Again, thank you for your interest. Joyce Zborower
