

A Collection Of Polymer Clay Masks

This amazing collection of polymer clay masks features many full sized (between 8 and 15 inches tall) masks made of polymer clay and also includes several hundred miniature masks that are sized to fit inside a three inch square. Masks of all sizes were created by a wide array of artists from around the world. The miniatures were made as part of annual Internet based swaps from 1998 to 2009. These fabulous works of wearable art utilize all sorts of techniques and can include other media like feathers or beads with the unifying themes being polymer clay and the size--all the other elements are up to the individual artists. By participating in and hosting these art exchanges for many years, the author has assembled a wonderfully diverse selection of more than 500 masks images shared here in these pages.
