

Heidi - The Original Classic Edition

I thoroughly enjoyed reading this at age 65 as much or more than I did as a child. It is well written and superbly crafted for a reasonable price. Heidi embraces the sufferings of rejection and the rewards of genuine love. It shows that people do need each other and that we are all capable of forgiveness. I am told the story was built on real life experiences of a Swiss family. The description and characterization is excellent. At times you can smell the smell of the pine trees and visualize the old log cabin of Grandfather. It takes the reader back to the days before electricity and even before telephones, which in itself provides the reader with an understanding of their place in history. Highly recommended as it brings hope to the lonely and the many who have known rejection.

Heidi (Classics for Young Readers) [Johanna Spyri, Ranelda Mack] be clear when purchasing that it isn't the original version and writing has been altered.
