

Nausicaa of the Valley of the Wind, Vol. 1

In the tradition of J.R.R. Tolkien comes an epic environmental cautionary tale created by world-renowned animator Hayao Miyazaki! Humanity in its hubris, has precipitated a devastating ecological disaster. Flourishing industrial civilizations have been swallowed up and Earth is covered with the Sea of Corruption, an enormous forest of fungi that releases a miasma of poisonous spores into the air. Nausicaä, a gentle young princess, has an empathetic bond with the giant mutated insects that evolved in the wake of the destruction of the ecosystem. Traveling by cumbersome flying ship, on the backs of giant flightless birds, and perched atop her beloved glider, Nausicaä and her allies must negotiate peace between kingdoms battling over the last of the world's precious natural resources.
