

The Chameleon: Adapting to Life's Challenges

Based on a true story, *The Chameleon* is a story about one man's journey through life, and how the choices he made shaped him into a wealthy businessman. After a series of failed careers and marriages, Tom Sniper (The Chameleon—because of his ability to adapt to any given situation to survive) lost two young boys, ages: 1 month old and 1 year old, to a bitter ex-wife. The ex-wife hid behind lawyers, who fired endless attacks of emotional and financial warfare, causing Tom to fall into a deep depression. He suffered years of depression, but with the help of an angel and four foreign exchange students, he triumphed over life, and was ultimately reunited with his two young children 5 years later. The story's message: Humans have the ability to become anything they want to become, and as long as they dream it, they can become it. We all are visionaries in one way or another, and as long as we are kind, caring, and remain humble, then our abilities to adapt will help us achieve unimaginable dreams in the future.
